COLOR PALETTE

This is a printable color palette. The color formulas used in this document are to provide you with a reference as to how our colors will appear when printed. The colors from this document you see on your computer screen are not an accurate representation of how they will appear when printed. Please refer to the color viewer within the product pages to see a more accurate screen to print comparison. Because all printers produce colors differently, we cannot guarantee that the printed results you see at home will be a 100% match to the finished product. For best results print on the best quality paper suitable for your printer.

 blossom	 bubblegum	 fuchsia	 strawberry	 cherry	 persimmon
